[www.fracturedatlas.org](http://www.fracturedatlas.org)

“Fractured Atlas is a non-profit organization that serves a national community of artists and arts organizations. Our programs and services facilitate the creation of art by offering vital support to the artists who produce it. We help artists and arts organizations function more effectively as businesses by providing access to funding, healthcare, education, and more, all in a context that honors their individuality and independent spirit. By nurturing today's talented but underrepresented voices, we hope to foster a dynamic and diverse cultural landscape of tomorrow.”

[www.npnweb.org](http://www.npnweb.org) NPN National Performance Network

NPN connects Artists with communities around two simple ideas - to help artists make work in their own neighborhoods, and to cross geographic and cultural divides to increase the traffic of fresh, challenging artistic work.

NPN provides support for established and emerging artists in dance, music, theater, performance art, puppetry, and spoken word. It serves as the developmental rung on the ladder for emerging contemporary performing artists because it provides rare or first-time touring opportunities.

[www.artspresenters.org](http://www.artspresenters.org) APAP Association of Performing Arts Presenters

Arts Presenters is the nexus for the performing arts community and the innovators in the field. Our over 1,900 members bring performances to over 2 million audience-goers each week. No other association membership rivals the breadth of creative expression, representing disciplines ranging from all forms of dance, music, theater and family programming to puppetry, circus, magic, attractions and performance art.

<http://foundationcenter.org/> HUGE online database of grants for individuals and organizations. Also loads of other resources, how-to articles and tutorials, online training, etc. In order to access the database you must pay a monthly fee, but it's quite reasonable and can also be cancelled after a month.

<http://gtionline.fdncenter.org/> Online searchable database for grants for individuals. Grants are organized by subject in a very accessible way. Another great feature of this site is that when you click on a grant, it brings up a box with a summary of the grant and all it's relevant information, so you don't have to go to each website in order to find relevant grants. \$10 a month and VERY worth the cost (you can of course pay for one month and then cancel- it's very quick and simple and the folks there tend to be very friendly and helpful when you call.)
